

How to get help to pay your bill

NKC Health™

Financial Assistance Policy

Plain Language Summary

NKC Health Financial Assistance Policy exists to provide eligible patients partially or fully discounted emergency or medically necessary hospital care. To be considered for financial assistance, please submit a completed Financial Assistance Application. You can ask for help with your bill at any time during your hospital stay or during the billing process. NK Health also will review your account to determine if any discounts can be automatically applied or given without a Financial Assistance Application.

Eligibility

Patients who receive emergency or other medically necessary hospital services and submit a completed Financial Assistance Application (including required documentation such as pay stubs, bank statements and income tax returns) and who meet specific Federal Poverty Guidelines (based on family size), may be eligible for financial assistance.

NKC Health will review your Financial Assistance Application and determine whether you qualify for financial assistance based on your circumstances.

NKC Health also may grant financial assistance automatically if you have no health insurance, or it may determine you are presumptively eligible for financial assistance based on its review of public record data.

Patients who qualify for financial assistance will not be billed or asked to pay more than the amounts generally billed to patients with health insurance coverage for emergency and other medically-necessary care.
